

INDIVIDUAL TRAVEL TOURS / NATURE HOLIDAYS IN COSTA RICA

It is an honor for us to present our program for the year 2022 / 23 as the pearl of adventure holidays / nature holidays:

All year long, we can serve your personal request. Our team will design your own individual trip, shall it be as single trip / family / married couple / small groups etc.

On request to our contact address, our team will put together a great trip for you, excluding flight booking, on site for the desired vacation days. There are many activities that can be organized from our regional center @ central south pacific coast next to **Uvita / Dominical / Tinamaste:**

Surfing trips
Diving
Whale / dolphin visit
Yoga / dance / music

animal excursions at night
trips to volcano inspections
nature trekking / visit the waterfalls
adventure parks / rope tracks

etc.

We will put together your ideal holiday package and organize your personal holiday adventure for you, according to agreement and cost estimate

Optionally there are all kinds of good accommodations for **EVERY BUDGET !!** From RbnB with breakfast / cheap backpacker accommodation in the jungle / bungalows / hotels or private providers - full accommodation or places, where you can cook yourself

We accompany you for the organization with a basic rate of **Dollar 250.- / EUR 220.-** for optimal travel planning - regardless of the length of your stay. An initial conversation / first contact to exchange interests is **FREE**. Payment is followed by the arrangement of the travel planning with the transfer to the tour guide's account

TELEPHONE for the free first call in Costa Rica (exclusively via whatsapp + Telegram) :

+506 (0) 64490080 - Alain Maor / Tour Manager / Vivamos-Tours

From the trips and events that have already taken place from our travel tours, all over the world in recent years, we are convinced that this form of individual vacation will soon be found as one of the most popular vacation programs in Europe and other countries. **Costa Rica** offers a wonderful ambience in unpolluted, wonderful nature and offers in well-equipped bungalows and camp sites with great infrastructure and good food!

Various places have their own swimming pool, as we are located 200 meters away from a natural beach reserve next by the sea / birthplace for dolphins and whales in Uvita

Highest recommendation for visits is our suggestion of the whale watching tour / nature walks in the pulsating jungle, as well trips to the different coastal areas – Pacific / Atlantic & Caribbean. Our offer is supplemented optionally on request, with sound therapies / aromatherapy / massage offers and local dance or music events. Treat yourself to a highlight of your own trip with a local cacao ceremony. Costa Rica is a land of the sacred cacao bloom, medicinally

We look forward to getting to know each other by your first call. High season / dry season : Start - November to approx. March. Otherwise it is always warm in Costa Rica and even in the rainy season it is very pleasant and sunny and very hot throughout the day - bathing is possible all year round As an **important message:**

Costa Rica is very careful for tourists from all over the world to keep its doors open through the winter and throughout the season. It is high season here in Winter and, like Mexico, the authorities have so far kept the doors wide open. It was the same throughout the last year

The guidelines are currently being made easier and a **paso de salud** (health passport) must be completed with a **PCR test**. Any information can be read complete on the invitation / info PDF of the Ayurveda Retreat Holidays in our program or we will communicate it to share with you this info into the communication by phone

We are very pleased to welcome you as guests. Our team is always available to answer your questions

Sunny greetings

Alain Maor - Tourguide & Tour Manager – Vivamos Tours
